

# Javelin PDF Reader

Please use the **F**ile menu, **O**pen option to select a file to read. Standard PDF files have a file extension .pdf and Javelin secure PDF files have a file extension .drmx or .drmz

If you are prompted for an authorization code, enter the code provided to you by the publisher of the document. It may be easiest to do this by Copying the code provided and then Pasting it into the field when prompted.

For more help please visit our [web site help](http://www.drumlinsecurity.com) facility or contact the publisher of the document you wish to read.
